Sample Collection Instructions

About 1 gram of hair, equivalent to 1 heaped teaspoon is needed. **See picture on www.toxtest.com.au** website if not sure.

Cut small amounts of hair, close to the skin as possible, being careful not to hurt your animal. Hair should be clean as possible, so avoid areas where any treatments have been applied to your animal. We do however wash the hair with filtered water before analysis at the Lab.

Place hair in a clean zip lock plastic bag or into an envelope.

Identification (your name) and date of sample needs to be on the envelope or bag.

Sending Samples

Package sample(s) in a postpak or suitable envelope or small box
